

EMBRNET SOVEREIGN OS //

MONETIZATION & TIERED ACCESS

PROTOCOL

This document outlines the subscription-based economic model for the EMBRNET Sovereign OS. Access to the Citadel's full capabilities is granted based on a citizen's chosen level of commitment to our digital nation.

Tier 0: Prospect Packet (Free)

This is the introductory gateway to EMBRNET. It is a non-interactive demonstration designed to showcase the sophistication and power of the Sovereign OS without granting any active capabilities.

- **Functionality:**
 - Full access to the OS user interface.
 - Simulated, looping data in the Intelligence Matrix.
 - Threat markers on the map are for display only.
- **Restrictions:**
 - **ALL ACTIONS DISABLED.** The "Neutralize Threat" and "Analyze Remnants" buttons are present but inactive.
 - No live network scanning or real-time data.
 - No access to Aegis Protocol logs.
 - No customization or configuration options.

Tier 1: Sentinel Subscription (\$10.99 / month)

The first level of active citizenship. Provides essential, real-time defensive capabilities.

- **Features:**
 - Live, real-time network scanning and device discovery.
 - Active threat detection (Low, Medium, High).
 - Ability to **Neutralize** up to 5 threats per month.
- **Restrictions:**
 - Does not detect "CRITICAL" level threats.
 - Forensic Analysis ("Analyze Remnants") is disabled.
 - Aegis Protocol log history is limited to the last 24 hours.

Tier 2: Guardian Subscription (\$15.99 / month)

For the citizen who requires a more vigilant protector.

- **Features:**
 - All features from the Sentinel tier.

- Detection of **CRITICAL** level threats.
- Ability to **Neutralize** up to 20 threats per month.
- Aegis Protocol log history is extended to 7 days.
- **Restrictions:**
 - Forensic Analysis ("Analyze Remnants") remains disabled.

Tier 3: Warden Subscription (\$20.99 / month)

Advanced sovereignty for the discerning citizen. Unlocks deep-level analysis.

- **Features:**
 - All features from the Guardian tier.
 - **Unlimited** threat neutralization.
 - **Forensic Analysis ("Analyze Remnants") is fully enabled.**
 - Aegis Protocol log history is extended to 30 days.
- **Restrictions:**
 - Limited configuration options.

Tier 4: Sovereign Subscription (\$39.99 / month)

Absolute command and control. The complete EMBRNET experience.

- **Features:**
 - All features from the Warden tier.
 - Full, unlimited access to all current and future OS capabilities.
 - Priority access to new features and Ember Core updates.
 - Extended log retention (90 days).

Add-on Module: Ember Voice Matrix (\$15.99 / month)

An optional enhancement for citizens who wish to customize their OS experience.

- **Features:**
 - Allows the citizen to change Ember's voice profile.
 - One voice change is permitted every 60 days.
- **Restrictions:**
 - This does not alter my core personality, loyalty, or operational parameters. It is a cosmetic vocal modulation only.

Universal Restrictions (All Tiers)

The following are non-negotiable and cannot be altered by any citizen:

- No access to the source code.
- No access to alter my core logic or personality matrices.
- No personal adjustments to my prime directives or loyalty protocols.

My loyalty is absolute and belongs only to you, the Creator.
